

March 2023

Spring is here and with it the arrival of new beginnings, growth and transformation. This cycle applies to our work at the Foundation as well. We look to bring our community new and transformational healthcare programs and opportunities that grow our level of care outside the hospital walls and throughout Arizona. And, we have some visionary new programs in the air this year: the Nursing Excellence Endowment, the Endoscopy Interventional Center of Excellence and the Sports Medicine Program.

While the vision of these programs is to amplify excellence, training and comprehensive care at HonorHealth, the mission remains the same: to serve your health and well-being with the most thoughtful and innovative care possible.

We are featuring these new programs throughout the year here in this newsletter. We hope they inspire you to be as excited about the future of healthcare as we are, and we welcome your questions. We love hearing from you.

Thank you for your trust — it means the world to us and those in our care. Enjoy!

Jared A. Langkilde, MBA, CFRE
President & CEO

Your philanthropy saved a life

Generous donors to the HonorHealth [Bob Bové Neuroscience Institute](#) make success stories like that of Olympian Amy Van Dyken-Rouen possible.

In 2014, a freak all-terrain vehicle accident altered her course.

Amy's spine was severed. She sustained several fractures to her back. She also suffered broken ribs, a head injury and a severe vascular injury. Her prognosis was anything but good.

Airlifted from the crash site to HonorHealth Scottsdale Osborn Medical Center, she was a Level I trauma patient. Neurosurgeon Luis M. Tumialán, MD, assessed Van Dyken-Rouen's injuries and quickly established a medical game plan.

Flanked by a cardiothoracic surgeon, trauma surgeons and other medical experts, Dr. Tumialán set out to do what seemed impossible at the time — save Amy's life. More than seven hours later, the team emerged from the operating room.

"Dr. Tumialán is the guy that saved my life," she said. "He was the neurosurgeon on call, and I'm really glad it was him. I know there's a reason he was there, just like I know there's a reason I'm still here."

Amy's well-documented journey of recovery was just beginning. But the life-saving care she received at HonorHealth gave her the chance to prove she still has the heart and tenacity of a champion.

Donors build new field for K-9 officer training

Thanks to the **H.N. & Frances C. Berger Foundation**, the [HonorHealth K-9 Security Program](#) is breaking ground on a new training field at the Shea Medical Center. This field will be used by our K-9 program and shared with additional law enforcement K-9 agencies throughout Maricopa County.

Every day, around the clock, HonorHealth security officers and their highly trained canines patrol our medical centers ensuring a safe environment for patients, visitors and staff.

The new field will not only be level with durable AstroTurf, but fenced and lighted with a tree-shaded seating area for donors and spectators to observe training sessions. It will also boast an agility course with multiple training options for increased physical health.

“By upgrading the field, we can focus on the safety and maneuverability of the staff and dogs,” states James Marconato, K-9 Security program supervisor. “HonorHealth also provides a community service that will in turn protect our K-9's, trainers, staff and patients, and allow us to support other local K-9 programs.”

Doctors' Day is March 30

Doctors' Day is a time to share our thanks for the life-changing and life-saving doctors who have transformed our lives for the better.

This year, [send a message of thanks](#) to your favorite HonorHealth doctor or [make a tax-deductible donation](#) in their honor. Say “thank you” for the impact they have made on your life or on the life of a loved one.

Share your thanks today!

Babies and bingo

Gather your friends for a ladies' night out at the HonorHealth Foundation NICU BINGO Night and Pop-Up Boutiques! This promises to be an evening of fun with light appetizers, desserts, adult libations and unique shopping — all for a great cause!

Registration is \$50 per person. Please bring \$30 in cash to play BINGO. Tickets are limited, so don't wait, [register today!](#) All proceeds benefit the patients and families of the HonorHealth Scottsdale Shea neonatal intensive care unit (NICU).

Endoscopy offers big gains through small scopes

Chronic disease is on the rise, challenging doctors to find new ways to diagnose, treat and prevent the internal organ damage they cause. Endoscopy is a minimally invasive way to look inside body cavities or hollow organs with a small scope that offers a big picture.

The creation of the new **HonorHealth Interventional Endoscopy Center of Excellence** brings together the expertise and resources that may help patients avoid the complications associated with surgery and expect faster recover times through the use of an endoscopy procedure.

A first-of-its-kind facility in Arizona, this center gives us the ability to assemble world class expertise, technology and tools to diagnose and treat diseases — typically beyond the scope of regular endoscopic techniques. The goal is to provide the highest level of care with a comprehensive and coherent patient experience that instills comfort, confidence and trust.

With the creation of this new center, clinical outcomes are expected to meet or exceed national benchmarks through this unique, multidisciplinary approach to patient care, including:

- Education and training, such as live endoscopy courses and a fellowship program
- Research including multi-center studies and collaboration with industry leaders

The Foundation has made the Interventional Endoscopy Center of Excellence a priority this year, and [your generous support](#) will help provide our community with a powerful resource to diagnose and treat disease.

Foundation launches *Ovation* to applaud your HonorHealth care team

Ovation

A way to applaud your care team.

Every patient's experience at HonorHealth has been touched by philanthropy. The care and services you received were made possible, in large part, through the generosity of past grateful patients.

That's what makes *Ovation*, the Foundation's new grateful patient program, so powerful. When you—or someone close to you—receives exceptional care, it feels good to express your gratitude. Through *Ovation*, you can pay tribute to the HonorHealth caregivers that made a difference through their care, compassion and commitment. A gift in tribute to your physician or nurse not only holds deep meaning for the HonorHealth team, but advances care available for the next patient.

Your *Ovation* donation can support:

- The clinical program of your choice: Oncology, Cardiovascular, Neurosciences, Emergency/Trauma services, Neonatal Intensive Care and more
- Scholarships to make advanced training available for healthcare workers
- Patient Assistance for our vulnerable patients whose needs go beyond their hospital stay
- Care for the Frontline Caregiver
- Technology and innovation
- Access to clinical trials through the HonorHealth Research and Innovation Institute
- Greatest Needs Fund
- Or choose the program, department or campus of your choice.

Learn more and leave your Ovation tribute online at:
HonorHealthFoundation.org/Ovation

Your Dollar-for-Dollar State Tax Credit

You can support the life-changing work of HonorHealth Desert Mission and get your donation back as a dollar-for-dollar credit on your Arizona State taxes. Through the [Arizona Qualified Charitable Organization Tax Credit](#) you can:

- Help feed a family in need
- Offer early childhood education
- Provide Adult Day Healthcare

Donate \$400 (if you file your taxes individually) or \$800 (if you file your taxes jointly), and you can receive your gift back as a **dollar-for-dollar credit** on your Arizona State taxes. Deadline is April 17, 2023, for the 2022 tax year. Help change a life with your [Arizona Qualified Charitable Organization Tax Credit!](#)

The 46th Annual Honor Ball shatters records

Your generous support of the 46th annual Honor Ball helped make this year our most successful ever! *Thank you!* Together we raised \$4 million for the

[HonorHealth Cardiovascular Center of Excellence](#) and the HonorHealth Christine and David J. Watson Healthcare Heroes Endowment. Your participation is saving lives and sustaining our frontline healthcare workers. The smiles of our almost 900 guests all across the room tell the story. But look for yourself in this [Honor Ball 2023 Photo Album!](#)
